RESIDENT STATISTICS
LOW-RENT PUBLIC HOUSING
NEWARK
1972

NEWARK HOUSING AUTHORITY
PLANNING, ENGINEERING & RESEARCH
57 SUSSEX AVE, NEWARK, N. J. 07103

Introduction

The information which served as the basis for this statistical report was gathered in the course of managements annual reexamination of income of all residents of Newark's Low-Rent Public Housing Developments (HUD 5-1245). This review was conducted during the months of January, February and March of 1972.

The staff of the Department of Research and Statistics, working together with the Authority's Data Processing Department, analyzed and grouped the raw data into the statistical tables contained in this report.

As a further part of the Authority's total informational program, a listing of all residents was prepared and distributed to project managers and Central Office management staff. A master copy, as well as regularly up-dated information, is maintained in the offices of the Research and Statistics Department.

Request for further information may be directed in writing to the Executive Director or to the Research and Statistics Department, Newark Housing Authority, 57 Sussex Avenue, Newark, New Jersey 07103.

TABLE E
HOUSING AUTHORITY OF THE CITY OF NEWARK
BASIS FOR DETERMINING RENT

March 31, 1972

NHA RENT FORMULA: \$1 rent per month is charged for each \$55, or fraction thereof, of net annual income for rent.

"BROOKE AMENDMENT" RENT FORMULA: \$1 rent per month is charged for each \$48 of net annual income for rent.

There is a wide variance in the deductions allowed under each formula on the basis of which net annual income for rent is determined, therefore each family's gross annual income is computed using both the NHA and "Brooke" formula in order to arrive at a rent figure. In all cases the actual rent the tenant pays is the lesser of the two calculations. See Tables 18A and 18B.
